

TKnika

Lanbide Heziketan Berrikuntzak sartzeko Zentroa

LHko Berrikuntza eta Teknologia Institutua berriki sortutako zentro bat da, Lanbide Heziketako eta Etengabeko Ikaskuntza Sailburuordetzak eta Zuzendaritzak sustatua, 2003-2004 ikasturte honetan jarri dena abian. Erreneriako Zamalbide auzoan dago, hain zuzen ere Zamalbide BHI ohia zegoen eraikinean. Beraz, Euskadiko LHko Sailburuordetza eta Zuzendaritzaren esku menean dagoen zentroa da.

Centro de Innovación en la Formación Profesional

El Instituto de la Innovación y la Tecnología en la F.P. es un centro de reciente implantación que, impulsado por la Viceconsejería y la Dirección de F.P. y Aprendizaje Permanente, está dando sus primeros pasos este curso 03.04. Está situado en el barrio Zamalbide de Rentería en las instalaciones de lo que fue el IES Zamalbide. Es un centro, por lo tanto, dependiente de la Viceconsejería y de la Dirección de F.P. del País Vasco.

Centre for Innovation in Vocational Training

The Institute for Innovation and Technology in Vocational Training was recently founded as a learning institution. It was promoted by the Office of the Vice-Councillor of the Vocational Training and Continuous Learning Directorate, and it is taking its first steps this academic year 2003-2004. It is located in the neighbourhood of Zamalbide in Rentería in what was formerly the Zamalbide High School. It is therefore dependent on the Office of the Vice Councillor of the Vocational Training Directorate of the Basque Country.

Joxe Mari Elola Iraeta

TKNIKA Ikastetxeko Zuzendaria Orokorra

Innovación TKNIKA
Director General of TKNIKA
Innovation Centre

Características

La Misión del centro es convertir la innovación en el eje vertebrador de la FP y situar la FP de Euskadi en una posición de excelencia en el contexto internacional, impulsando la relación de los centros integrales con las empresas, los centros tecnológicos y con los departamentos de investigación universitarios, dando origen a una dinámica movilizadora y abierta.

Creado, pues, para impulsar las nuevas tecnologías en la F.P. el centro va a desarrollar su actividad en cuatro escenarios principales:

1. El Área de innovación e-learning y dinamización de las NTICs en los centros.
2. El Área de Innovación Tecnológica y Urrats bat: Programa para el desarrollo de Proyectos Empresariales.
3. El Área de Innovación en la Gestión.
4. El Área de Formación.

Para ello las estrategias elegidas son las siguientes:

1. Impulsar los procesos de innovación tecnológica en la formación profesional del País Vasco, para que la F.P. sea más competitiva y dinámica.
2. Colaborar con los centros de formación profesional del País Vasco en el desarrollo de la sociedad de la información y las nuevas tecnologías para crear vínculos de conexión con todo el mundo, aprender de los países más avanzados y establecer relaciones de aprendizaje cooperativo.
3. Impulsar los procesos de innovación en la gestión en los centros integrales de formación profesional del País Vasco para crear estructuras más flexibles, dinámicas y participativas, basadas en la colaboración, en la confianza en las personas, en la autonomía y capacidad de gestión de los equipos.

4. To promote settings for virtual vocational training.
5. To coordinate the creation of business projects in the V.T. schools, as well as cooperate with other institutions that may be implicated.

Characteristics

The schools mission is to make innovation an essential part of VT and to place Vocational Training in the Basque Country in a position of excellence within an international context, promoting interaction between Basic Schools and companies, technological centres and university research departments, giving way to an active and open dynamic.

Founded, therefore, in order to promote new technologies in V.T., the schools four main courses of action shall be:

1. Innovation in e-learning and to activate ITCs in the schools.
2. Technological Innovation and Urrats bat: Programme for the development of business projects.
3. Innovation in Management..
4. Innovation in Education.

For this purpose, the following strategies have been defined::

1. To promote procedures for innovative technology in vocational training in the Basque Country, in order to make Vocational Training Studies ever more competitive and dynamic.
2. To cooperate with the Vocational Training Schools of the Basque Country towards the further development of the information society as well as new technologies, in order to establish international connections, to learn from more advanced countries and to begin relationships for cooperative learning.
3. To promote innovative managerial procedures for the Basic Vocational Training Schools of the Basque Country, in order to create more flexible dynamic and participative structures, based on the values of cooperation, trust in the individual and on the self-reliance of each team. To develop courses in Education for e-learning.
4. To promote settings for virtual vocational training.

5. To coordinate the creation of business projects in the V.T. schools, as well as cooperate with other institutions that may be implicated.

4. E-learning prestakuntza ikastaro-ak egitea.

5. Lanbide heziketa birtualerako inguruneak bultzatzea.

6. LHko ikastetxeetako empresa-sorkuntzako proiektuak koordinatzea, eta beste erakundeekin elkarlanean aritzea.

7. Teknologia berrikuntzaren gaine-ko prestakuntza eskaini eta ematea, eta LHko ikastetxe europarretako irakasleei teknologia berrien inguru anholku ematea.

8. Espainia osoan eta nazioartean ga-rrantzi handiko proiekuei ekitea.

Ikuspegia argia da: lanbide heziketa-ren berrikuntzan, institutua erre-rentzia-gune bihurtzea Europan.

PROIEKTU ESTRATEGIKOA

Zeregin, ikuspegi eta estrategia orokorrak Lanbide Heziketako eta Eten-gabeko Ikaskuntza Sailburuordetzenen enkarguan zein bestelako informazio-iturri garrantzitsuetan oinarrituak dira (Lanbide Heziketako euskal plana, Hausnarketa estrate-gikoaren prozesua Gipuzkoa 2020, Zientzia, teknología eta berrikuntzarako euskal plana). Haietatik abiatuta, Proiektu Estrategiko bat prestata da datzen urteetarako, honako ardatz nagusi hauek dituena, arlo arazo:

1. Informazioaren eta Komunikazioaren Teknologien (IKT) Berrikuntzarako Arloa

Arlo honen helburuak hauek dira:

- Ikastetxeetako informatika-sare eta -balibideak optimizatzea, eta ikastetxeen arteko konektititatea hobetzea.
- Egiturak sustatzea (jakitea zeintzuk diren ezarri beharreko teknologiak) eta ikasgela digitalen kopurua eta erabilera areagotzea.

4. Desarrollar cursos de formación e-learning.

5. Impulsar los entornos de forma-ción profesional virtual.

6. Coordinar los proyectos de crea-ción de empresas de los centros de F.P. y colaborar con otros organi-zmos implicados.

7. Ofertar e impartir formación en innovación tecnológica y asesorar en nuevas tecnologías al profesora-do de centros europeos de F.P.

8. Abordar proyectos de emberga-dura en el ámbito nacional e inter-national.

La visión es convertir al instituto en el centro de referencia en la innovación de la formación profesional en Europa.

PROYECTO ESTRATÉGICO

A partir de la misión, visión y estrate-gias generales, sustentadas en el encargo de la Viceconsejería de Formación Profesional y Aprendizaje Permanente y en otras fuentes de información importantes (Plan Vasco de Formación Profesional, Proceso de Reflexión Estratégica Gipuzkoa 2020, Plan Vasco de Ciencia, Tecnología e Innovación) se ha elaborado un Proyecto Estratégico para los próxi-mos años cuyas líneas general, por área, son las siguientes:

1. El Área de innovación en las TICs

Los objetivos de este área son:

- Optimizar las redes, recursos in-formáticos que existen en los cen-tros y mejorar la interconectivid-ad de los centros.
- Potenciar las estructuras (Saber que tecnologías hay que implantar) y aumentar el número y uso de las aulas digitales.
- Buscar el apoyo y colaboración de las empresas de I+D y centros tec-nológicos.
- Desarrollar materiales e-learning para apoyar al profesorado en el proceso de E/A.
- Impulsar nuevas formas de im-partir clases basadas en el uso de las NTICs..
- To optimise the networks and computer resources now in the schools and to improve interconnectivity among them.
- To reinforce structures (by determining which technologies are applicable) and to increase the number of digital classrooms.
- To seek out the support and cooperation of R&D companies and other technological centres.
- To develop learning materials in order to assist teaching staff in e-learning.
- To promote new teaching methods based on the use of ITCNs.

The goal is that the Institute come to be an important point of reference in the innovation of Vocational Training in Europe.

STRATEGIC PROJECT

A Strategic Project for the next few years has been defined, based on the goals and general strategies put forth by the Office of the Vice Coun-cillor of the Vocational Training and Continuous Learning Directorate and other important sources of information (Basque Plan for Vocation-al Training, Process for Strategic Thinking Gipuzkoa 2020; Basque Plan for Science, Technology and Inno-vation) se ha elaborado un Proyecto Estratégico para los próxi-mos años cuyas líneas general, por área, son las siguientes:

1. Innovation in ITCs

The goals in this area are:

- Ikastetxeetako informatika-sare eta -balibideak optimizatzea, eta ikastetxeen arteko konektititatea hobetzea.
- Egiturak sustatzea (jakitea zeintzuk diren ezarri beharreko teknologiak) eta ikasgela digitalen kopurua eta erabilera areagotzea.
- To optimise the networks and computer resources now in the schools and to improve interconnectivity among them.
- To reinforce structures (by determining which technologies are applicable) and to increase the number of digital classrooms.
- To seek out the support and cooperation of R&D companies and other technological centres.
- To develop learning materials in order to assist teaching staff in e-learning.
- To promote new teaching methods based on the use of ITCNs.

6. To offer teacher training for technologi-cal innovation and to advise on new technologies to the teaching staff of European V.T. schools.

7. To undertake large-scale projects on a national and international level.

The goal is that the Institute come to be an important point of reference in the innovation of Vocational Training in Europe.

STRATEGIC PROJECT

A Strategic Project for the next few years has been defined, based on the goals and general strategies put forth by the Office of the Vice Coun-cillor of the Vocational Training and Continuous Learning Directorate and other important sources of information (Basque Plan for Vocation-al Training, Process for Strategic Thinking Gipuzkoa 2020; Basque Plan for Science, Technology and Inno-vation) se ha elaborado un Proyecto Estratégico para los próxi-mos años cuyas líneas general, por área, son las siguientes:
